

Glen Kitchen - Software Developer - CV

Email: glen.kitchen@gmail.com

Cell: +27 83 776 8377

Location: Ballito, KwaZulu-Natal, South Africa

About

I am a software developer with extensive experience in enterprise business software.

I bring a unique combination of specialized business process expertise and deep technical skills in the development of full-stack web applications and mobile applications.

I have played a leading role in developing solutions for accounting, manufacturing, distribution, and retail.

My core focus right now is Kikstart: business software for the AI era. Describe your business and AI provisions a live web app from maintained modules in minutes, with your own database from day one, ready to extend with custom features and a branded mobile app.

I am also open to contract work.

Current Tech Skills

Typescript

React

Next.js

React Native

Expo

PostgreSQL

Agentic Coding

Detailed Work Experience

Tech Stack

Van Dyck Carpets
Accountant/Developer

Apr 1999 - Sep 2006
7 years, 5 months

This was a hybrid role with accounting and IT duties.

On the accounting side I was initially the cost accountant and thereafter the management accountant responsible for overseeing the accounts department.

I was also involved in various IT projects which were my introduction to the world of software development: Manage roll out of Syspro ERP, oversee development of in-house shop floor applications, develop in-house sales reporting applications.

Windmill Restaurant

Restaurant Manager

Jun 1992 - Mar 1999
6 years, 9 months

I worked as a restaurant manager while simultaneously pursuing: a sporting career as a Springbok Bodyboarder and doing freelance accountant work.
